I am a **student** because I am willing to learn new things every day. I am an **Educationist** Science-Biology teacher and till now my students result is 100% by the grace of God. This thing motivates me every day and I am also learning so many things from my students. I never want to be a teacher before but as I enter in this profession I am enjoying it a lot. That's true that every child is a fresh and new book to read and understand. We need to read them carefully and have to handle them patiently. My students are remembering me for my different way of creating discipline. I am an **Author** and I started writing since 2015. Pearl Kaur: Navigating Life's Unexpected Turns, From Schooling to Founding

“PEARL EDUCATIONAL TRICKS” ~ Pearl Kaur

An educator and founder of Pearl Educational Tricks, shares her journey from completing her education to facing challenges in the teaching profession. Despite setbacks in the private school sector, she found her passion in teaching teachers and founded her platform focused on experiential learning. Pearl, recognized as the Young Educationalist of the Year in 2023,

Pearl Kaur, an educator and founder of the most loved and acknowledged learning platform- PEARL EDUCATIONAL TRICKS. I am Delhi-based. I completed my schooling at the Convent of Jesus and Mary. After that, I opted for distance learning from the India Education Centre (Himachal Pradesh) Along with it I was pursuing a Diploma in Event Management but due to COVID-19, destiny decided something else for me and opened all the closed gates and made me An Educator and Founder. I am a dog lover and a most humble person if you meet me personally. I keep my work and personal life under wrap as I am a secretive person. I believe in the teachings of Guru Nanak Dev Ji. The person who was always behind me and protected me from my self-thoughts was my MUMMY. I always make sure to keep myself updated about clothing and jewelry. In my opinion, make our work speak louder than your words. Words can be forgotten but work shines forever.

Her goal is to contribute to the holistic development of children and extend teaching workshops globally on the significance of experiential learning.

”

Q. How was the start?

I completed my Bachelor of Education, Diploma in Early Childhood Care and Education and obtained certification in Phonics from Safal Teacher Training. My motive was to convey my knowledge to students, Whatever I have learnt I believe that rather than keeping it, we should share it and vast our knowledge as they are future builders of our society.

Q. How was my journey and what challenges I have faced?

My Journey involves a lot of sweet, emotional, and bad phases that make strong and intellectual women.

After completing my education, I got my first job in a well-known school in West Delhi but it seemed a disastrous decision. Due to the Pay scale and the Teacher's social environment was depressing. So I left the job and worked in a different school. I have more than 2 years of experience. The journey of private schools was a mixture of sweet and salty memories. I suffered a lot of work pressure, the pay scale was not up to the educational policy, disrespected teachers by school authorities, zero appreciation for extraordinary work and I had no job security. My interest has always been to teach teachers instead of students because they are foundation builders. They need to adopt a change in their teachings to fulfil the child's needs. Because of this, I became the founder of Pearl Educational Tricks and helped teachers who were facing problems with content delivery or those who were inspiring teachers. We focus on experiential learning and quality of education, we are preparing the future of society.

Q.What do you like most about your profession?

If you told me not to teach for a day, it would be a difficult period for me. Teaching is something that guides me on what I want from my life and how I can help everyone achieve their full potential. When teachers messaged me and told me the feedback on activities or selected in an international school or cleared the demo session in school smoothly. I feel extremely blessed and overwhelmed when teachers tell me they want to be like me!

Q.How do you manage the profession together?

I work in school meanwhile I need to shoot videos and select a relatable topic which is quite time-consuming. But still, I managed it from my end not to leave any work incomplete. My motive is always to finish my school paper-work in the school itself so that I can focus on my content, recording and editing the videos in my free time. I scheduled my work accordingly as per my workload. Therefore Now I am habitual of it and work extra hours on weekends to provide them access to quality education and experiential learning.

Q. What have you achieved, and what are your current goals?

I am blessed to have such a loving and caring family who supported me. We were awarded Young Educationalist of the Year in 2023 along Asia Iconic Awards in 2023. My goal is to work on the holistic development of children to fulfil their needs and interests. We desire to reach progressively every private or government school or training institute to offer them a teaching workshop online as well as offline globally regarding the importance of experimental learning.

Q. If your message could leave readers with one thought, what would it be?

You need to always Trust the timings. Remember my friend every good thing takes time to proceed further. Let your work speak louder than your words. Words can be forgotten but the work shines forever.

“ Mastering pageantry, nurturing passions, overcoming obstacles - my journey is a testament to strength and empowerment.

Q. what challenges you faced during your pageant days ?

Entering the realm of pageantry without any prior background proved to be an entirely novel experience for me. The challenges ranged from confidently striding in 5/6-inch heels to mastering the art of posing before the camera, presenting a steep learning curve at the outset. Despite these initial hurdles, the journey culminated on a positive note, and I find immense joy and thrill in securing a position among the top 8 contestants in my inaugural pageant.

Q. Please share your skincare routine with our readers .

Commencing my day with a refreshing glass of water, I prioritize a daily skincare routine that involves cleansing and moisturizing to maintain the health of my skin. Additionally, I indulge in a facial treatment once a month to give my skin a rejuvenating boost. Embracing a minimalistic approach, I opt for less makeup on a regular basis, and before retiring for the night, I ensure to thoroughly remove any makeup, emphasizing the importance of a clean and healthy skincare regimen.

Q. Do you want to pursue your career in modeling & pageants or do you have some other plan ?

With a full-time job occupying much of my focus, the idea of venturing into a career in modeling or pageants hasn't crossed my mind extensively. However, it's a realm that I genuinely enjoy being a part of. Balancing the demands of my professional life with the passion I find in modeling and pageantry, it remains a fulfilling and cherished aspect of my pursuits, even though it hasn't taken center stage in my career considerations.

Q. Which is your most favourite achievement till now ?

When I was young, I got really sick. It was tough, and I had to work hard for a long time to get better. That's why my favorite thing I've done is getting through those tough times and getting healthy again. It wasn't easy, but it taught me to keep going even when things are hard, and that's something I'm really proud of.

Q. What motivates you to be in Fashion world ?

In my view, fashion holds the power to empower individuals, instilling a sense of confidence that transcends mere clothing choices. Our unique fashion sense serves as a visual representation of our personalities, allowing us to express ourselves authentically. I firmly believe that the right outfit has the potential to work wonders, not only enhancing our physical appearance but also boosting our self-assurance and leaving a lasting impression on those around us.
